Dear Valued Customer,

Thank you for inquiring about the ADA compliance of our In-Wall Carriers. I can confirm that our Geberit Concealed Tank & Carrier UP320 model 111.335 and the UP200 111.255 comply with the Americans with Disabilities Act, (ADA) Accessibility Guidelines for Buildings and Facilities (ADAAG) when used in conjunction with an ADA compliant fixture, installed at the proper height. The ADAAG requirements are repeated in the ANSI Standard ANSI/ICC A117.1 for Accessible and Usable Building Facilities.

The operable parts may be operated with one hand and do not require tight grasping, pinching, or twisting of the wrist. The force required for activation does not exceed the maximum.

Sincerely,

Larry Himmelblau
