Re: Geberit Tessera Water Closet Tank (wall hung with Carrier)

Dear Mr.Carpenter:

The State **does not** approve individual products; it will advise a company that upon providing adequate documentation, it may issue a finding that testing performed an independent laboratory recognized by the Board demonstrate that the materials used for a specific use are found to be acceptable.

In the instance case, upon reviewing the supporting documentation provided, the Board has found that the materials captioned above to have been tested by an approved testing facility. Based upon the testing results, it is found to be acceptable as tested for use in those areas under the jurisdiction of the Maryland State Plumbing Code. The State Board will allow the use of the water closet tank and carrier, provided all manufacturer's instructions and recommendations for installation are followed.

The final approval of the use and installation of this product with in Maryland, however will remain with each of the local jurisdictions within Maryland.

If there are any further questions you may contact me directly at (410) 230-6160.

Sincerely,

Charles P. Kazlo
Executive Director
State Board of Plumbing

cc: Chairman & Members State Board of Plumbing
